HYU Return-to-School(Work) Guide for COVID-19 Prevention

	Type	Subjects	Return to school	HYU member action guideline
Students / faculty and staff	Confirmed case	If you tested positive for COVID-19	If you leave the residential treatment center/hospital or be released from self-isolation	*Must always wear a KF94 mask (or same protection level mask) for 3days after discharged or released from the self-isolation, and students are recommended to only participate for required academic curriculum(class, exam) inside the campus. *Those who have symptoms should get treatment in the clinic or monitoring at home (using the self-testing kit)
	Under Self-quarantine	If you are notified by disease control authorities (public health center) as a person subject to self-quarantine (close contact with Confirmed case, at-home patient's housemate, etc)	After being released from self-quarantine (must tested negative before the release)	If you have not got the re-testing notice right before the release from quarantine by the public health center: :Request for re-testing before the release -Must always wear a KF94 mask (or same protection level mask) for 3days after released from the self-quarantine, and students are recommended to only participate for required academic curriculum(class, exam) inside the campus.
	Having suspected Covid-19 symptoms	If you have Covid-19 symptoms (With only one of the symptoms, fever, cough, sore throat, muscle pain, headache, sudden loss of taste/smell, etc.)	Visit the public health center or Covid-19 testing centers and tested negative for Covid-19	*If possible, please visit the public health center or the Covid-19 testing centers to get tested ASAP. -Although you got tested negative for Covid-19, If your symptom lasts for more than 2 days, please visit a clinic to get treatment.
	Under active/passive monitoring	If you are notified by disease control authorities (public health center) as a person subject to active/passive monitoring (at-home patient's housemate)	Tested negative for Covid-19	*If you are scheduled for a COVID19 testing during active/passive monitoring period: Stop attending the University from the day you get tested until you receive your test result. -Must always wear a KF94 mask (or same protection level mask) for 3days after released from the self-quarantine, and students are recommended to only participate for required academic curriculum(class, exam) inside the campus.

※ Covid-19 Test means PCR Tests, RAT (rapid antigen tests). Regarding the type of testing kits, please follow the guidance from the public health center or Covid-19 testing centers.

※ **Prohibition of attending school** not only bans enter the school, but also means you **cannot meet school members at school (outside school) temporarily**.

※ The epidemiological investigation of Covid-19 positive patients in campus will be conducted if necessary. 2 days before the date of confirmation if the patient is asymptomatic, and 2 days before the symptoms appear if the patient is symptomatic.

※ If you **get test positive for COVID-19**, please contact the administrative office or Hanyang Health Care Center (Seoul Campus ☎ 02-2220-1466~7, yars0205@hanyang.ac.kr) to prevent the spread of COVID-19.

※ The information above is based on the Central Disease Control Headquarters and Central Disaster Management Headquarters' Covid-19 Response Guidelines (10-3rd edition released on January 1, 2022), Ministry of Education's Covid-19 Control and Prevention Guidelines for Universities (4th edition released on December 7, 2021), and the HYU Infectious Disease Control Committee's enhanced responses to COVID-19 considering the school's characteristics as publicly used facilities. Please strictly follow the rules in order to prevent the spread of COVID-19.
